

Watkins & Tasker Vets COVID-19 Policy

Update: 19th July 2021

From 19 July 2021, as a clinical premises we are retaining some of our COVID-19 security requirements for the continued protection of our healthcare colleagues and others.

We ask that all clients kindly observe the following when visiting us:

- Please bring your own face covering to wear when speaking with our veterinary staff outside and when entering the Practice
- Please continue to observe considerate and sensible social distancing at all times
- Hand sanitising stations will remain available for client use

We thank you for your patience as we continue to limit access to the Practice – this is to continue to look after our team and provide ongoing veterinary care for your pets. We are also asking you to be kind and respectful as we are working very hard to provide the best health care to your pet.
